

Bradley Hills Village August 2023 Newsletter

Bradley Hills Village ended July with a fantastic event in the Triangle Garden. Over sixty neighbors of all ages came out on July 30th to celebrate the community and our shared green space. Under perfect blue skies, BHV with Huntington Terrace Citizenship Association enjoyed a magical family day brought to us by volunteers from both neighborhood organizations. Much fun was had running through a huge dinosaur sprinkler, splashing in a wading pool, blowing bubbles, eating brownies, enjoying a nature scavenger hunt, and creating the most wonderful stone snake named Bradley- you have to go meet our pet snake (picture is attached)!

The membership drive that started this year continues to bring in wonderful people from around our five neighborhoods. Twenty-six households have joined our wonderful village since the beginning of 2023, which means Bradley Hills Village has grown by more than one-third so far this year. It seems as though we are updating the directory daily, and we have some exciting events planned for the fall: new members wine and cheese, voices in the village, progressive dinner, and garden speakers to name a few! An updated membership directory with contact information will be delivered in a folder to new members in August and emailed to all members in September.

Welcome New Bradley Hills Village Members!
